Watch the video.

Think about what you predicted the world would be like in the next 250 million years. What were the key points you put on your time line during innovate day?

You need to create a comic strip for the next 250 million years of this music video.

=====	=====	=====
=====	=====	=====

You will need to draw a picture and add as much detail as you can.

A basic example of an order of ideas:

- 1). Man loses weight.
- 2). Man learns to jump high and far.
- ▶ 3). Man starts to grow longer arms. Buildings start to disappear
- 4). Arms start to turn in to wings. Buildings are replaced by trees.
- 5). Man can fly.
- 6). Aliens arrive.
