## 28.1.2021

### TBQ: Can I multiply?

The graphic shows a staircase with four steps, each in a different colored box. The text in the boxes is as follows:

- Step 1 (Green box): I know what multiplication is.
- Step 2 (Blue box): I know other vocabulary for multiplication.
- Step 3 (Red box): I can recognise my 2, 5, and 10 times table.
- Step 4 (Blue box): I can use a concrete or pictorial method if I need to.

SMART Notebook  
— basic version —

Today, we are going to complete some multiplications. You can use your counters or objects and your arrays and look back at this week's learning to remind you how to work them out. Remember, if you can work them out in your head, use objects or arrays to check your answers. There are 3 different chilli challenges below. I would like you to choose which one you think you can do - if you find it too hard or too easy, you can always change your challenge.

Mild	Hot	Scorching
$1 \times 2 =$	$7 \times 2 =$	$2 \times 7 =$
$3 \times 2 =$	$6 \times 2 =$	$3 \times 8 =$
$2 \times 2 =$	$6 \times 5 =$	$8 \times 5 =$
$2 \times 5 =$	$3 \times 10 =$	$9 \times 10 =$
$3 \times 5 =$	$9 \times 5 =$	$12 \times 5 =$
	$8 \times 10 =$	$6 \times 3 =$

Challenge – Can you work out this word problem?

Ali buys 3 bags of apples. Each bag has 4 apples in it.  
How many apples does he buy?
